Commercial Vehicle Brake Caliper Refurbishers

The new MCC in Leicestershire

MCC was established in July 2002. Responsible for the remanufacture of commercial vehicle brake calipers.

We boast an extensive range of Truck trailer and PSV finished products as well as supplying repair kits and replacement parts for any make or commercial vehicle brake caliper.

We offer a service that we believe is amongst the best offered by any remanufacturer in the country including carriage paid delivery, regular collection of old core, no cut off time for couriers, no quibble guarantee on all products and probably the most experienced and knowledgeable staff in the Reman Caliper Trade.

We have enjoyed growth in the company year after year which we feel suggests that we must be doing something right, we also pride ourselves that whilst we have a large base of regular and loyal customers, we are perhaps the last resort of many sales enquiries where a customer is unable to source a unit from their usual supplier, but MCC are able to satisfy close to every enquiry it receives, due to its superior knowledge and stocks.

We are still complying with our self-imposed policy of not supplying end users unlike many of our competitors who are, we believe, are being scrutinised by motor factors, and quite rightly so.

Midland Calipers are proud of their achievements and are constantly striving to improve their service which we feel is already second to none.

MCC are grateful to existing customers and welcome new enquires with the solemn promise that everyone will receive immediate and professional attention.

Thank you, Mick Bunney

Craig - Sales

Ela Aneta Ola
Accounts & Admin

Rob - Sales

- Excellent Quality ● Extensive stocks
- Carriage Paid ● Very Competitive Pricing
- Regular Collection of Old Units
- Experienced Technical Back-up - 7 Days
- Kits & Parts Supplied ● Late Cut off time for Couriers
- 12 Months Warranty
